For : Method for Efficiently Preparing DNA Inverted Repeat Sequence

INFORMATION DISCLOSURE STATEMENT

Commissioner for Patents
United States Patent and Trademark Office
Customer Service Window
Randolph Building
401 Dulany Street
Alexandria, VA 22314

Sir:

In accordance with the duty of disclosure under 37 C.F.R. §1.56, Applicants bring to the attention of the Examiner the English translation of the International Preliminary Report on Patentability for PCT/JP2004/014308 (upon which the present application is based).

This submission does not represent that a search has been made or that no better art exists and does not constitute an admission that each or all of the listed documents are material or constitute "prior art." If the Examiner applies any of the listed documents as prior art against any claims in the application and Applicants determine that the cited documents do not constitute "prior art" under United States law, applicant reserves the right to present to the office the relevant facts and law regarding

{P29533 00053630.DOC}

Attorney Docket No. P29533

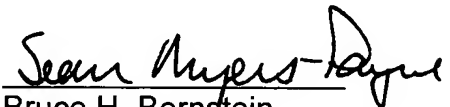

Application No. 10/572,750

the appropriate status of such documents.

Applicant further reserves the right to take appropriate action to establish the patentability of the disclosed invention over the listed documents, should one or more of the documents be applied against the claims of the present application.

Should the Examiner have any questions, the Examiner is invited to contact the undersigned at the below-listed telephone number.

Respectfully submitted,
Taku DEMURA et al.
